Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

High Impact Incident Problem Statement

Example:

SERVICE DESK AGENT | HIGH IMPACT INCIDENT TRIAGE

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Service desk agent	Triage high-impact Incidents consistently	Routing may be incomplete	Form relies on manual checks	Under pressure and uncertain the record is ready
PS-2	Incident manager	Keep triage records complete	State can be changed from a list without context	The full form workflow is bypassed	Concerned about inconsistent audit and reporting

Project note: values use the standard Incident choices where Impact 1 and Urgency 1 represent High. Confirm field names and values in the target instance.
